## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's arguments, in view of the amendments filed 8/28/06, with respect to claims 6 and 22 have been fully considered and are persuasive. The rejection of claims 2-9 and 18-25, 27, 28 and 30 has been withdrawn.
2. Claim 29 has been rewritten to include previously indicated allowable subject matter and is allowed. The rejection of claims 10-16, 36 and 29 has been withdrawn.

### ***Allowable Subject Matter***

3. Claims 2-9, 10-16 and 18-30 are allowed.
4. The following is an examiner's statement of reasons for allowance: None of the prior art on record teaches wherein filtering the set of frequently occurring phrases includes comparing a component word of a phrase to a dictionary of common words and excluding the phrase from the set of entity name and jargon term candidates if the component word is a common word. It would not have been obvious to one of ordinary skill in the art at the time of invention to modify the prior art on record to arrive at the Applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Di et al. (U.S. Pat. 7,020,587) teaches generating suffix trees from text and calculating term frequencies using the tree.
